## Practical information for employees

### What do we offer?

- A high quality ironing service by professionally trained ironers, in our own workshop.
- The ironing is collected and returned to your company at set times.
- Payment with tax-friendly service cheques, according to a points system (1 cheque = 60 points).

### How do you proceed?

- For practical reasons, the ironing is delivered in an ironing bin, with a lid. You will receive such a bin from us against payment of a deposit of € 10.
- You complete a list of submitted ironing beforehand and place it in the ironing bin. If there is something special that should be taken note of, you must note this clearly, separately.
- On the basis of the points list you can calculate exactly how many checks you have to pay (round the number off upwards). You place the amount of cheques that are owed in the ironing bin and close the bin.
- You leave your ironing bin in the area provided by your employer and collect it again after delivery.

### What more should you know?

- An ironing bin with lid, a list of submitted ironing and a points list can be obtained from the person designated by your employer.
- At the start of the ironing we sort your ironing ourselves.
- At the same time we check the contents of your bin, based on the list that you completed. If something is wrong, you will be contacted or a written comment will be made on the list.
- The settlement is made after the ironing is done. If the amount of the cheques is higher than what you have to pay, a credit note will be added to your ironed laundry. You can deduct this credit note from the next order.
- If you have any problems or questions you can turn to the person designated by your employer or to us.
